

Box Truck Questions

1. How much weight will you be carrying?

This will vary – we would like to be able to place pallets of books on this truck when we move so it needs to handle at least 10 pallets of books at about 1,000 lbs each.

2. How tall and wide are the items that you are carrying?

This will vary per trip.

3. Would a 24 ft box truck work?

Yes
