

## Teens Create: Partner Drawing

**Test your communication skills by working with a partner to recreate a drawing**

1. Decide who will be the Artist and who will be the Interpreter
2. The Interpreter chooses one of the pictures below, keeping it secret from the Artist
3. The Artist draws on a blank piece of paper that the Interpreter cannot see
4. The Interpreter gives step-by-step directions without naming what the Artist is drawing (for example: "start with a large circle in the center" or "connect the horizontal line with the vertical line" but NOT "draw a leaf on the top")
5. The Artist may ask questions for clarification, but NOT ask what they are drawing
