There are more than just medical bills to pay after a heart attack, stroke, or other unexpected covered medical condition. Critical Illness Insurance provides a benefit payment that can help. This document includes expanded cost and benefit information for Critical Illness Insurance. As you explore, keep in mind:

No medical questions or tests are required for coverage.

Employees get an annual Wellness Benefit of \$50 for completing an eligible health screening test.

Benefit payments go directly to you. Use them however you'd like!

Critical Illness Insurance doesn't replace your medical coverage; instead, it complements it. **The benefit** payments don't *go out* to pay for medical bills or treatments you may need, instead they *come in*—directly to you—to be used however you'd like. Choose this supplemental health insurance product for added protection if one of the following covered conditions comes your way.

Critical Illness Insurance is a limited benefit policy. It is not health insurance and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.
