## What is CancerBridge?

### **Imagine hearing these three words, “You have cancer.”**

Now, imagine being able to talk to a world-renowned cancer expert, a physician who specializes in your cancer, to understand the next steps you should consider taking in your treatment ... all within a single business day.

CancerBridge provides you with unparalleled access to some of the world's foremost experts in cancer. A confidential information and navigation service provided by your employer and the cancer experts at The Ohio State University Comprehensive Cancer Center – James Cancer Hospital and Solove Research Institute (OSUCCC – James), CancerBridge makes talking with those experts as easy as dialing the phone.

### **With CancerBridge, one of our cancer experts will:**

- Provide information specific to your cancer inquiry;
- Discuss cancer treatment options and possible next steps to be considered; and, if needed,
- Assist with a recommendation to an appropriate sub-specialized cancer expert at a National Cancer Institute (NCI)-designated Comprehensive Cancer Center near you.
- Most importantly, CancerBridge helps provide some peace of mind for you and your family at a time when emotions are high and information or knowledge may be limited.

### **Easy to use**

By dialing a private, toll-free number, you are immediately connected with CancerBridge. During this initial call, a certified oncology nurse will ask questions to better understand your cancer concerns. If needed, within one business day the appropriate physician expert in that specific cancer will call you to discuss your questions and possible next steps.

Because CancerBridge is a private navigation service, you will need your employee ID number when you call.

### **For you and your family**

The CancerBridge service is available to all employees and their immediate family members — parents, parents-in-law, spouses, partners, children and siblings.

For your convenience, CancerBridge is available Monday through Friday from 8 a.m. to 5 p.m. (ET). If you call outside the business hours, you will be able to leave a private voice mail that will be returned on the next business day by one of our certified oncology nurses.

### **Member Area**

Our Member Area gives you access to our resource library stocked with featured benefit information, webinars, and others. Visit [mycancerbridge.com/member-login](http://mycancerbridge.com/member-login).
