Modifications

Part I. Modifications

1. The entire RFP document has been replaced for issues of clarity.
2. Page three of “Marion-Franklin Technology,” the floor plan, has been replaced to include accurate specifications. The interior floor plan (drawing T101) showed 1 extraneous panic button in the staff work area (124) and 1 in the break room (122). Only one wall-mounted panic button should be in the work area (124), as shown by the entry door on revised drawing T101.
